Рассмотрим приборы производства фирмы Omron.

## High Quality Digital Blood Pressure Monitors

All Models Available

(See Below For Details on Selected Models)

**HEM - 712C Unit Price: \$69.95**

**With Large Cuff Unit Price: \$89.95**

With the Purchase of HEM-712C the following accessories may be purchased at these special prices:

**712 - ADPT (A/C adaptor)**

**Unit Price: \$20.00**

**Zippered Carrying Case**

**Unit Price: \$5.00**

### Automatic Inflation Blood Pressure Monitor

- Cuff inflates with the push of a button
- Stores last reading memory
- Blood pressure and pulse display on a large digital panel
- Easy to apply D-ring cuff

Compatible with AC adapter and large adult cuff, both sold separately

**HEM - 737 Unit Price: \$99.95**

**With Large Cuff Unit Price: \$122.95**

With the Purchase of HEM-737 the following accessories may be purchased at these special prices:

**707 - ADPT (A/C adaptor)**

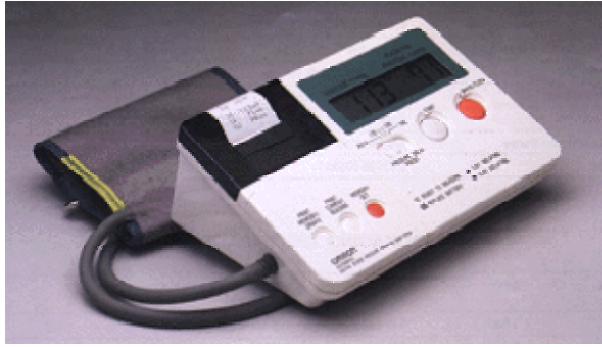

**Unit Price: \$21.00**

### IntelliSense™ Automatic Blood Pressure Monitor

- Extremely easy to use
- Personalized inflation and deflation
- Innovative fuzzy logic technology provides maximum comfort and accuracy
- Quickly and accurately measures blood pressure and pulse
- Large, easy to read display panel

Contoured D-ring cuff with helpful "how-to-apply" label

**HEM - 705CP Unit Price: \$139.95**

**With Large Cuff Unit Price: \$159.95**

With the Purchase of HEM-705CP the following accessories may be purchased at these special prices:

**97 - ADPT (A/C adaptor)  
Unit Price: \$20.00**

**90TRP (Printer Paper pk/5)  
Unit Price: \$5.00**

### **Memory, Print-out and Graph Blood Pressure Monitor**

- Completely automatic blood pressure monitor retains up to 14 readings in memory.
- Monitor prints systolic, diastolic, and pulse measurements in both digital and bar graph form.
- Bar graph indicates blood pressure ranges: normal, borderline or hypertensive.
- Blood pressure and pulse measurements are alternately displayed on an extra large LCD panel.
- Curved contour oscillometric D-ring cuff provides user with a uniform fit to ensure accuracy.
- Includes two rolls of printing tape, easy-to-follow instructions and a soft vinyl storage case.

Optional AC adapter (Model 97ADPT) converts Model HEM-705CP to electrical operation.

**HEM - 703CP Unit Price: \$99.95**

**With Large Cuff Unit Price: \$119.95**

With the Purchase of HEM-703CP the following accessories may be purchased at these special prices:

**97 - ADPT (A/C adaptor)  
Unit Price: \$20.00**

**90TRP (Printer Paper pk/5)  
Unit Price: \$5.00**

### **Measurement Print-Out Blood Pressure Monitor**

- Monitor prints systolic, diastolic and pulse measurements, time and date for accurate record keeping
- Automatic inflation and deflation
- D-Ring contour cuff is easy to use and provides a secure fit
- Complete with illustrated instructions.
- Operates on 4 "AA" batteries (not included)
- Optional AC Adapter, Model 97ADPT, converts Model HEM-703CP to electrical operation

**HEM - 725 CIC Unit Price: \$350.00**

**With Large Cuff Unit Price: \$370.00**

With the Purchase of HEM-725CIC the following accessories may be purchased at these special prices:

**97 - ADPT (A/C adaptor)  
Unit Price: \$20.00**

### **Automatic Digital Blood Pressure Monitor**

Until now the preferred method of hypertension monitoring was with the use of ABPM on a 24 hour basis. Now Omron, the leader in self-measurement home blood pressure equipment, is pleased to introduce the **Omron IC** (Information Control) automatic blood pressure unit. Starting with its **user friendly design, 350 measurement capability, evaluation software, and reasonable price**, the **Omron IC** will be the preferred alternative to ambulatory monitoring.

When cost/value decisions are made in the purchase of medical equipment, **Omron IC** ranks as a leader in cost containment in blood pressure monitoring.

- Artery marker for accurate placement
- Adjustable D-ring cuff with "how-to-apply" label
- Helpful message to guide you
- Displays systolic and diastolic blood pressure and pulse rate.
- Adjustable inflation control
- Large, easy to read display

Compact, portable design

**HEM - 707 Unit Price: \$159.95**

**With Large Cuff Unit Price: \$179.95**

With the Purchase of HEM-707 the following accessories may be purchased at these special prices:

**707 - ADPT (A/C adaptor)  
Unit Price: \$21.00**

### **Automatic Inflation Monitor with Fuzzy Logic**

- Automatically determines ideal cuff inflation
- Extra large digital panel measures approx. 1½" x 3½" and displays blood pressure and pulse simultaneously
- Self-store design protects monitor and the cuff inside
- Includes instructions in English, Spanish and French
- Operates on 4 "C" batteries (included)
- Optional accessories include Model H-003DF Large Adult Cuff for arms 13" to 17" in circumference and Model 707-ADPT AC Adapter (adapter is recommended for use with large adult cuff)

**HEM - 725c Unit Price: \$99.95**

**With Large Cuff Unit Price: \$119.95**

### Automatic Inflation Monitor

- Preset switch lets user control inflation level
- Large digital panel measures approx. 1" x 3½"
- Complete with zippered carrying case and instructions in English, Spanish and French
- Operates on 4 "AA" batteries (not included)
- Optional accessories include Model H-003D Large Adult Cuff for arms 13" to 17" in circumference and Model 97ADPT AC Adapter (adapter is recommended for use with large adult cuff)

**HEM - 706c Unit Price: \$139.95**

**With Large Cuff Unit Price: \$159.95**

### Fuzzy Logic Monitor

- Automatically determines ideal cuff inflation
- Jumbo size digital panel measures 1¼" x 3½"
- Built-in compartment for convenient cuff storage
- Complete with illustrated instructions
- Operates on 4 "AA" batteries (not included)

**HEM - 704c Unit Price: \$119.95**

**With Large Cuff Unit Price: \$139.95**

### Self-Storing Monitor

- Cuff inflates with the push of a button
- Self-storage design protects monitor and the cuff inside
- Extra large digital display measures approx. 2" x 2"
- Complete with illustrated instructions
- Operates on 4 "AA" batteries (not included)
- Optional accessories include Model H-003D Large Adult Cuff for arms 13" to 17" in circumference and Model 97ADPT AC Adapter (adapter is recommended for use with large adult cuff)

**HEM - 806F Unit Price: \$112.95**

### Finger Monitor 806F

- Extremely easy to use
- Cuff inflates with the push of a button
- Finger cuff fits left index fingers 2" to 3" in circumference
- Clear digital panel measures approx. 1/2" x 1 3/4"
- Included illustrated instructions and 2 "AA" batteries

**HEM-609 Unit Price: \$104.95**

### Wrist Blood Pressure Monitor with IntelliSense™

- Personalized inflation with IntelliSense™ technology
- Last reading memory makes measurement comparisons easy
- Completely automatic, operates with the push of a button
- Easy to read clear digital display
- Ultra compact design travels anywhere
- Fits wrists 5 1/4" to 7 3/4" in circumference

Comes complete with 2 "AAA" batteries, illustrated instruction manual and protective storage case.

**HEM-608 Unit Price: \$79.00**

### Portable Wrist Monitor

- Automatic inflation & deflation
- Easy wrap cuff is ideal for Arthritis
- Large, easy-to-read digital display
- Compact and portable. Travels anywhere
- Includes illustrated instructions and 2 "AAA" batteries
- Fits wrists 5 1/4" to 7 3/4" in circumference

**HEM-601 Unit Price: \$99.95**

### **Wrist Monitor**

- Measures blood pressure and pulse from the wrist
- Automatic inflation and deflation
- Preset switch lets user control cuff inflation level
- Large digital display measures 1 3/4" x 2"
- Built-in compartment for cuff storage
- Includes illustrated instructions and 4 AA batteries

Fits wrists 5 1/4" to 7 3/4" in circumference

**HEM-605 Unit Price: \$124.95**

### **Compact Wrist Monitor**

- Innovative watch-style design
- Ideal for people who take measurements frequently
- Automatic inflation and deflation
- Flip-up display panel fold down when not in use
- Includes durable carrying case and illustrated instructions
- Operates on 2 AAA batteries (included)

Fits wrists 5 1/4" to 7 3/4" in circumference
